

CREWSAVER SERVICING AND MAINTENANCE BULLETIN No. 31

Issued to: All Service Stations

DATE ISSUED: 2nd September 2011

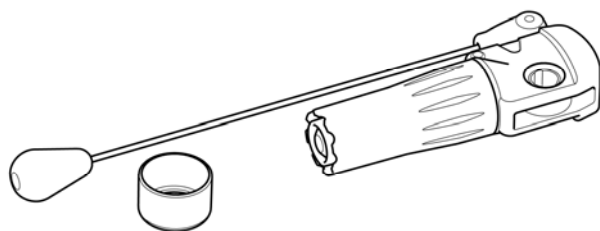

SUBJECT: Auto capsules

ISSUED BY: Rob Angel

EXP DATE: Not Applicable

United Moulders Auto Capsules with castellated end

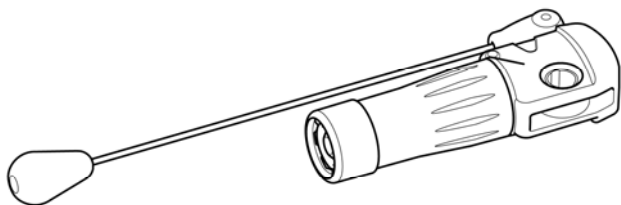

Changes from previous issue: 1st Issue.

United Moulders have developed a protective end cap which they recommend is fitted to capsules with castellations around the end. It fits both the navy blue Crewsaver and the black United Moulders capsules.

There is no requirement to carry out this retrofit on lifejackets stored for abandonment purposes only but should be fitted to any other lifejackets when they are next serviced.

This requirement is temporary as new capsules are being developed which will go back to a smooth rounded end.

These caps are provided free of charge and Crewsaver will supply an initial stock of 500 to all service stations. When additional caps are required they can be requested against part number R17111.
