

Survitec Service & Distribution Ltd (Crewsaver)

---

**Servicing / Technical bulletin number: 079**

**Issued to:** All Service Network (Approved sites)

**Date Issued:** Dec 2023

**Subject:** Calibrated service tools

**Issued by:** Guy Page (Technical)

**Exp date:** open

---

We would like to remind service sites that you are required to carry a full set of calibrated service tools and have them calibrated every year.

These tools should be fixed calibrated, adjustable tool are “not” allowed to be used.

Crewsaver can supply all tools required.

If you purchase tools within country or have current tools, you will be required to have all calibrations certification to handle during any site inspection.

**Calibrated tools required.**

**Note: - Please remember that using non-calibrated tools is not allowed to be used within the service of a Crewsaver lifejacket.**

**Using the correct tools ensures no damage can happen, and the jacket can work correctly.**

**Using non-approved tools can affect the performance and structure of the life jacket and could put the user at risk.**
