# Our story

**We've got your safety covered.**

For absolute protection and performance, you need the very best equipment you can rely on to ensure your safety is taken care of. By combining our innovative ergonomic designs with ground-breaking performance materials, we aim to provide you with the winning formula. Our leisure brochure offers a complete product collection for those essential items of safety equipment allowing you to enjoy the pleasures of being out on the water.

**Crewsaver**<sup>®</sup>  
60<sup>TH</sup> ANNIVERSARY

# 60 years of pioneering lifejacket technology

**We're celebrating! Having first launched to the market in 1957, we are celebrating more than 60 years of pioneering lifejacket technology!**

Based in Gosport, England, we design and manufacture bespoke safety equipment for several countries' Special Forces, and the aviation and oil industries. We are the only company to hold an exclusive contract to supply lifejackets to the UK government's Environment Agency and the Royal National Lifeboat Institution (RNLI).

Survitec is recognised as the most comprehensive global total solutions provider for critical safety and survival equipment. With a history dating back over 160 years, Survitec commands market-leading positions worldwide in marine, energy, defence & aviation survival technology.

As innovators with a passion for developing new products and services to meet the changing demands of our customers, we pride ourselves on delivering great service. Although our business interests span many countries and markets, our people share a common mission... your survival.

Crewsaver, a part of Survitec are the leading lifejacket manufacture for the marine, energy and defence markets.

1973

Crewsaver finds larger premises to house new business.

## CREWSAVER 1957

The Crewsaver brand is first incorporated under the name 'Crewsaver Marine Equipment Ltd' in Gosport on the South coast of England.

1968: Crewsaver begins to expand quickly and develops a specialist knowledge in safety products, creating unique styles tailored to specific sectors of the sailing community.

1980's: The benchmark leisure user

1980: Crewsaver pioneers the design of new gas operated air-only lifejackets, which delivered many more feature- benefits as well as increasing overall safety for the user.

Crewsaver

Over 60 Years of Pioneering Lifejacket Technology

**1997**  
Crewsaver works with the RNLI to produce the 1st generation bespoke lifejacket for the RNLI.

**PHASE 2**  
**2011:** Crewsaver Dinghy introduces Phase2; a new range of cutting edge technical marine apparel aimed at the performance watersports market.

**London 2012**  
Crewsaver is chosen as a supplier for sailing, triathlon and canoeing marker buoys to the London 2012 Olympics.

**FUSION 3D**  
**2014:** Crewsaver launched revolutionary Fusion 3D lifejacket range

**2016:** Survitec Group continues sponsorship of Alex Thomson Racing by supplying complete safety equipment for the 16/17 Vendée Globe

**2018:** Survitec Group launch a brand new range of Crewsaver commercial lifejackets including the brand new modular designed Crewfit XD

Crewsaver expands into aviation launching the new Survitec Halo lifejacket

**1996:** CE approval standard is introduced, with new legislation and standards to adhere to. Changes were made to design and function of lifejackets to ensure all products exceeded new standards.

**ERGOFIT**  
**2011:** Crewsaver launches the revolutionary collection

**2017:** Artemis Racing appoints Crewsaver as safety supplier for 35th America's Cup leading to the design of two revolutionary new high performance buoyancy aids

**2007**  
With products being sold in over 40 countries, Crewsaver celebrates its 50th anniversary as a market leader in the marine safety sector.

**survitec group**  
**2011:** Survitec Group Limited, one of the global leaders in safety and survival equipment, acquires the Marine Division of Cosalt plc, including the Crewsaver®, Yak® and CSR® brands.

**2018**  
Crewsaver wins contract to design and supply lifejackets for leading french search and rescue organisation, Les sauveteurs en Mer (SNSM)

**2010**  
Crewsaver is named as the RNLI Supplier of the year.

**2014**  
Crewsaver signs partnership with Abu Dhabi Ocean Racing.

# CREWSAVER

Crewfit range effectively established as a worldwide standard for the design and function of lifejackets for the

# 2019

## WHY CHOOSE CREWSAVER?

Crewsaver is recognised as a world leading designer and manufacturer of lifejackets and sailing equipment.

## Expert Design

Crewsaver's expert designers work closely with the most experienced lifeboat crews, as well as elite round-the-world racers used to pushing their limits within the extreme wind and wave conditions of the Southern Ocean.

With their unique insight we are able, step by step, to refine every aspect of our lifejackets' design and construction.

We feed these innovations directly into each of our lifejacket ranges, whether for commercial or leisure use, ensuring that whatever your reason for being afloat, your safety is never compromised.

## Materials and Fabrics

Whether you seek comfort, functionality, approval, reliability, longevity or strength, we have a Crewsaver lifejacket to suit you.

Our design team carefully chooses the best and most appropriate materials for each product, ensuring the ultimate in comfort and longevity for the individual environment. We then combine our in depth know-how with the latest technology to construct quality products which offer you the best possible performance.

## Inflation Mechanisms

Crewsaver works tirelessly with the world's leading inflation mechanism manufacturers to ensure that all the units we use offer the best possible performance within each individual lifejacket design.

In addition, we are proud to have introduced the Pro-Sensor Elite operating head into our lifejackets as the culmination of a project with one of our valued suppliers.

The Pro Sensor Elite® Automatic Inflator provides additional improvement on the standard MK5 Automatic Inflator, affording the user one point of status indication to confirm that the unit has been automatically or manually activated. The unit also provides the added benefit of detecting if the Co<sup>2</sup> cylinder has been pierced, eradicating the possibility of accidentally fitting an empty gas cylinder. As with the UML MK5 Inflator the great benefit of this inflation system is the functionality of the automatic override which under normal operating conditions activate within 3 seconds of the system being submerged in water.

## Bladder Technology

Our design philosophy begins with approval standards. To this we add the Crewsaver difference brought about by our complete understanding of both daily life and emergency survival in extreme marine environments.

All of our products are designed, tried and tested with real life situations in mind, allowing you to rely on them completely.

For example, all of our lifejacket bladders are designed ergonomically for every day use but without compromise for your survival in the very worst scenarios. In normal conditions, the 3D sculptured shaping gives you maximum comfort and our sculpted sides allow you to move freely and without hindrance. However should an emergency arise and you find yourself in the water, you'll find our unique designs inflate quickly and reliably. They have buoyancy distribution to keep your mouth well above the water, known as mouth freeboard, and top-of-the-range turning properties to safely float you on your back. Our inflatable chin support will also help to keep your airways clear.

Are you **#LifejacketSafe**

# “I’m not planning on falling in...”

It’s something that we have all heard before and we may even be guilty of thinking it ourselves. However...

“Accidents can happen at any time in any weather. Good training and common-sense help, but lives could be saved every year if people wore correctly-fitted, well maintained lifejackets or buoyancy aids.”

- Maritime and Coastguard Agency

The **#LifejacketSafe** campaign aims to increase safety awareness by highlighting the importance of not only wearing a personal flotation device, but also making sure it is worn correctly and is well maintained.

So, if the worst should happen, you are well equipped and can rest assured that your safety equipment is not going to let you down.

## Do you...

- ✓ Wear a lifejacket and wear it correctly?
- ✓ Get your lifejacket serviced annually?
- ✓ Wear the right lifejacket for your activity?
- ✓ Follow care and maintenance guidelines?

For more information about how you can stay **#LifejacketSafe**, visit the **#LifejacketSafe** section on the Crewsaver website.

## Lifejacket Servicing

For those who have bought a lifejacket and wear it, we say 'congratulations'! You have taken the first step in increasing your chances of survival in an in-water emergency. But did you know... your lifejacket, just like your car, needs to be regularly maintained and serviced?

### What happens during a lifejacket service at an approved service station?

- ✓ All lifejackets serviced at an approved Crewsaver service station will be subjected to rigorous inspection by a fully qualified technician to maximise its performance if needed in an emergency
- ✓ Perform a lifejacket inspection and advise if the lifejacket can be serviced or needs to be replaced
- ✓ A service is also an opportunity for components to be stripped down, so that all the valves and seals, normally hidden behind various components, are also tested. Any expired, worn or perished parts will be replaced (additional costs may be incurred for the parts, just like an MOT)
- ✓ An inflation to test pressure & mechanism test will be performed to ensure the bladder is in working order
- ✓ Any general observations that you should be made aware of will be highlighted including any service bulletins or advisories that may have occurred on this product
- ✓ On repacking the lifejacket, the service station will ensure it is repacked correctly and will therefore work in an emergency
- ✓ The accredited service station will keep a test report recording how the lifejacket performed. Then in the event of an issue, this test report can be consulted

To find your nearest Crewsaver service station head to 'Find a Stockist' on [www.crewsaver.com](http://www.crewsaver.com)

# Put the **life** back in your **jacket**.

Register your Crewsaver lifejacket or liferaft to receive your free servicing reminder.

## Why Register?

- ✓ We will send you email reminders to get your lifejacket or liferaft serviced
- ✓ Your product details will be held on our system. This will be very useful if you ever need to contact us with an enquiry or if your lifejacket or liferaft is found
- ✓ Receive **#LifejacketSafe** safety tips

Registering your lifejacket or liferaft is easy!

Simply register at: [www.crewsaver.com/uk/product-registration](http://www.crewsaver.com/uk/product-registration)

Would you trust your life in the hands of this lifejacket?

**Don't take the risk.**

Look after your safety equipment so it can look after you.

Are you #LifejacketSafe

# THE NEXT LEVEL IN LIFEJACKET DESIGN

A large percentage of the boating world still do not wear lifejackets. As a manufacturer of integral safety equipment the challenge for Crewsaver has been to reduce this number through the design of comfortable and stylish lifejackets, while increasing the key safety features for vital in water performance.

No matter your circumstances, be sure to choose your lifejacket carefully. Whether you are selecting for yourself, your family, your crew or your colleagues, you should consider worst case scenarios and the type of lifejackets everyone should be wearing for their ultimate safety overboard. The Fusion 3D collection consisting of ErgoFit+, ErgoFit and Crewfit lifejackets mean that whatever your level or activity - there is a Crewsaver to suit.

**Fusion 3D** The Crewsaver lifejacket range encompasses the most innovative Fusion 3D technology, providing users at every price point with the most advanced comfort solutions available to date. The range moulds to the shape of your body and sits off of your neck giving the user total freedom of movement – so comfortable you will forget you are wearing it.

**Halo hood system** It has been proven that the addition of a spray hood inside a lifejacket can significantly enhance the wearer's safety. It increases visibility, retains heat and protects the airway by reducing the risk of secondary drowning. The ErgoFit+ features the halo hood system - an industry first designed for elevated airway protection. This is achieved through improved bladder and spray hood compatibility, and a new double halo construction. As a result, the spray hood is fully self-supporting once deployed and sits significantly higher above the face.

COMFORT.  
STYLE.  
PERFORMANCE.

# THE COMPLETE 3D LIFEJACKET RANGE

Whether you seek comfort, performance, functionality, approval, reliability, longevity or strength, we have a Crewsaver lifejacket to suit. Our design team carefully chooses the best and most appropriate materials for each product, ensuring the ultimate in comfort and longevity for the individual environment.

# ERGOFIT+ IT'S WHAT'S INSIDE THAT COUNTS

Using our **ErgoFit+** lifejacket as an example, we demonstrate the essentials of lifejacket design complete with a guide to our very latest safety features. This will help consolidate your knowledge and allow you to identify the features you need for your own specific use. Then simply pair up the features with our comprehensive lifejacket range to select the very best model for you.

**INDUSTRY FIRST**

**Halo hood system for elevated airway protection**

Day glow colour to aid visibility

Double halo construction with anti-glare and spray guard panel

Large internal space to reduce claustrophobia

Sculpted profile for improved in-water mobility to aid self rescue

Manual oral inflation tube for additional air top up

Built in lifejacket light and whistle

Built in PLB / AIS attachment points. AIS can be fitted to automatically activate on inflation

Reflective tape to aid visibility

Accessible twin lifting becket

Crotch straps to reduce jacket ride up

Market leading bladder distribution to provide exceptional turning solutions even when wearing heavy clothing\*

The most up-to-date Hammar MA1 and UML Pro-Sensor inflation mechanisms which prevent accidental activation by wave splash

A built-in inflatable chin support to help protect your airway

Sculpted profile for improved in-water mobility to aid self rescue

\*For maximum protection in severe weather conditions / when wearing heavy waterproofs / when help is far away, we recommend opting for a 275N rated lifejacket, such as the ErgoFit+ 290N

\*Ocean rowing modifications available

## ERGOFIT 290EX

Designed exclusively with Abu Dhabi Ocean Racing, based on the highly successful Crewsaver ErgoFit lifejacket collection, the ErgoFit Extreme maintains all of the high specification safety features as the ErgoFit 290N while providing essential performance attributes for the serious ocean racer.

The renowned ErgoFit bladder is, as always, a step above the rest. With its tailored shape, the bladder distributes buoyancy uniquely around the wearer to maximise in-water support and airway protection.

Code	Description	Size	Rearming Pack	
9145-BKAP	Automatic	Adult	11037	11332*
9145-BKHP	Hammar	Adult	11307	

\*Pro-Sensor Elite rearming packs for products manufactured after August 2019

### Key Features:

- ✓ Sculpted bladder profile for improved in-water mobility to aid self rescue
- ✓ Market leading bladder buoyancy distribution to maximise in-water support and airway protection
- ✓ Transparent indicator window to show the status of the inflation mechanism
- ✓ Dual buckle system to enable easy donning
- ✓ Easy to adjust side waist adjusters
- ✓ Robust 500D nylon heavy duty cover
- ✓ High quality hanging loop built into the lifejacket
- ✓ Fusion 3D shape providing the ultimate in comfort
- ✓ AIS and PLB compatible
- ✓ Lifejacket light and single hoop hood fitted as standard
- ✓  A unique number system for teams operating numerous amounts of jackets

## NEW ERGOFIT<sup>+</sup>290

Enter the ErgoFit+ and its halo hood system. This industry first spray hood system works with the shape of the inflated bladder to significantly reduce the risk of water inhalation as well as heat loss.

The renowned ErgoFit bladder is, as always, a step above the rest. With its tailored shape, the bladder distributes buoyancy uniquely around the wearer to maximise in-water support and airway protection.

In addition, the ErgoFit+ incorporates a new-to-market buckle system. With its slimline design, the quick lock buckle makes the lifejacket easy to don and accommodates the use of a single loop harness attachment point for ease of tethering.

The hood also includes an internal panel which further protects the wearer against spray whilst doubling up as an anti-glare panel, shielding the wearers' eyes from the lifejacket light.

### Key Features:

- ✓ **INDUSTRY FIRST** - Halo hood system for elevated airway protection
- ✓ **INDUSTRY FIRST** - Tailored window pocket, designed for full Exposure OLAS integration
- ✓ **INDUSTRY FIRST** - Slimline quick lock buckle system to provide easy donning
- ✓ Market leading bladder buoyancy distribution to maximise in-water support and airway protection
- ✓ Sculpted bladder profile for improved in-water mobility to aid self rescue
- ✓ Transparent indicator window to show the status of the inflation mechanism
- ✓ Fusion 3D shape providing the ultimate in comfort
- ✓ Soft loop D-ring for attaching safety harness
- ✓ Three-layer cover construction for durability
- ✓ Easy to adjust side waist adjusters
- ✓ AIS and PLB compatible
- ✓ Lifejacket light fitted as standard

## CREWFIT

The Crewfit range is the first of its kind in the world to offer; safe, stylish, comfortable and affordable solutions to the everyday recreational boater.

Using the knowledge and experience we have gained during the development of the ErgoFit lifejacket range, alongside 30+ years of experience we have in the design and manufacture of inflatable lifejackets we are able to ensure that every Crewsaver lifejacket encompasses the most advanced and essential safety features at every price point.

# NEW CREWFIT 180PRO HD

The Crewfit 180N HD features 500D heavy duty front body panels to provide increased durability, as well as reflective tape on the cover to help achieve maximum visibility. This lifejacket is perfect for those working in the marine environment including marina and charter boat operatives, as well as leisure users such as fishermen looking for that next level in durability. The successful integration of a high volume shaped bladder design, a peninsula chin support and increased buoyancy to 180N provides you with excellent in water performance.

## Key Features:

- ✓ Transparent indicator window to show the status of the inflation mechanism
- ✓ Twin, forward pull side waist adjusters
- ✓ Crotch strap
- ✓ Soft loop D-ring for attaching harness
- ✓ Fusion 3D shape providing the ultimate in comfort
- ✓ AIS compatible
- ✓ 500D heavy duty cover with external reflective tape option available

# CREWFIT 180<sup>PRO</sup>

The first of its kind, an everyday boating lifejacket designed using 3D technology to radically increase comfort levels. Successful integration of a high volume shaped bladder design, a peninsula chin support and increased buoyancy to 180N provides you with excellent in water performance. The Crewfit 180N Pro wraps all of these safety features into a fun, stylish, 3D shaped and super comfy cover.

## Key Features:

- ✓ Transparent indicator window to show the status of the inflation mechanism
- ✓ Robust outer cover
- ✓ Twin, forward pull side waist adjusters
- ✓ Crotch strap
- ✓ Soft loop D-ring for attaching harness (harness version)
- ✓ Fusion 3D shape providing the ultimate in comfort
- ✓ AIS compatible
- ✓ Lifejacket light fitted as standard

\*Hood available as an optional extra for the CrewFit 180N Pro

# EXPOSURE OLAS

**THE OLAS TAG IS A COMPACT, 'SMART',  
MAN OVERBOARD SYSTEM.**

The EXPOSURE OLAS Tag is now available as a fully integrable option into the Crewsaver ErgoFit+ lifejacket – taking man overboard protection to the next level.

Within 8 seconds of the man overboard incident occurring, the **OLAS** mobile application technology detects a break in its 'virtual tether' to the tag. The mobile phone(s) then sound a loud alarm, alerting crew to the fact someone is overboard. **OLAS** then aids the crew with the MOB recovery, clearly directing them to the GPS location where the MOB occurred with clear visual signals and bearing data. **OLAS** stores all location data and time of incident required by the rescue services.

# LIFEJACKETS FOR CHILDREN

## How to... choose a lifejacket for your child

Finding the right lifejacket for your child from the wide range of options available can feel a bit overwhelming, so we've put together this handy guide to help.

### Where are you heading?

Think about where you'll be out on the water with your child, and choose a lifejacket accordingly; in the same way that you would choose a lifejacket with more buoyancy for yourself if you were heading offshore or wearing multiple layers of clothing. Another feature to consider is whether you require a harness attachment point\*. Harness attachment points facilitate the use of safety lines, which are recommended when sailing in rough weather or during overnight passages.

**\*Never harness yourself or a child to a vessel travelling at high speed**

### Foam or gas?

For little ones, inherently buoyant foam lifejackets are perfect, as they offer constant buoyancy. This type of inherently buoyant foam lifejacket will reduce fatigue during general in-water activities and is perfect for surface watersports and swimming. It is highly recommended to opt for a foam lifejacket for younger children as they have been uniquely designed to work with the child's size and weight distribution.

For older children, a gas lifejacket might be a better option, these are not inherently buoyant but are designed to inflate automatically when in contact with water. These look more like adult lifejackets, and so might appeal more to pre-teens.

### How much buoyancy?

100 Newtons (100N) is ideal for general in-water play and inshore use. However, if you're heading away from the shore, extra buoyancy is needed for the type of clothing worn when sailing offshore. Look for children's lifejackets with 150N of buoyancy. The increase in buoyancy results in greater mouth freeboard (distance between airway and waterline), quicker spin times, and increased collar stability.

# What size do I need?

## Junior

## Large Child

## Child

## Baby

## Sizing

Correct fit is essential! Children should never wear adult lifejackets; a lifejacket definitely isn't something that they can 'grow into'. Make sure all adjustments (including crotch straps!) are always used and adjusted to the 'comfortably tight' position. A lifejacket that isn't a suitable size for them won't work as it should. Don't panic, all Crewsaver children's lifejackets come with a handy size guide; be sure to follow these guidelines to select the correct size lifejacket for your child. If you're ever unsure, seek expert advice.

**A lifejacket isn't something you can grow into!**

## Oliver's Adventure

Look out for the Oliver's Adventure storybook. This book was designed as an interactive tool to help parents and guardians teach their children the importance of lifejackets in a fun and interactive way. All new children's foam lifejackets will come with the storybook and the characters can be found printed on both the Supersafe 150N and Euro 100N lifejackets.

## Supersafe 150N

The Supersafe 150N is perfect for those venturing further offshore including ocean sailing and is one of the only foam lifejackets for children in the 150N 'Ocean' rated category. The increase in buoyancy results in greater mouth freeboard, quicker spin times and increased collar stability. Complete with a built-in safety harness, the Supersafe 150N accommodates the use of a safety line which is recommended when sailing in rough conditions or during night passages.

- 150N of inherently buoyant super soft PVC foam
- Reflective taping
- Built-in safety harness
- 'Baby' and 'child' sizes have additional seat support
- Crotch straps fitted as standard
- Waist adjustment
- Lifting becket
- Comes with Oliver's Adventures storybook

Baby & Child

Code	Description
10175	Baby, Child

## Euro 100N

The Euro 100N inherently buoyant foam lifejacket is perfect for inshore use, including surface watersports and swimming. The 100N of buoyancy reduces fatigue during general in-water activities whilst still providing a fun and comfortable fit. The super soft foam lifejacket comes in 4 sizes featuring character's from Crewsaver's popular 'Oliver's Adventure' storybook which teaches children the importance of wearing a lifejacket.

- 100N of inherently buoyant super soft PVC foam
- Reflective taping
- 'Baby' and 'child' sizes have additional seat support
- Crotch straps as standard
- Waist adjustment
- Comes with Oliver's Adventures storybook

Baby & Child

Large Child & Junior

# Spiral 100N

Entry level to the children's\* lifejacket range is the Spiral 100N. The inherently buoyant foam lifejacket is perfect for inshore use, including surface watersports and swimming. The 100N of buoyancy reduces fatigue during general in-water activities whilst still providing a fun and comfortable fit.

- 100N of inherently buoyant foam
- 'Baby' and 'child' sizes have additional seat support
- Crotch straps as standard
- Waist adjustment

\*Also available in adult sizes!

# LIFEJACKET SPARES & ACCESSORIES

## Customise Your Lifejacket

Lifejackets come in many shapes and sizes but there are integral safety features that all designs will have in common.

For example, a gas lifejacket that is ISO approved must include retro reflective tape, an accessible whistle and a lifting becket.

Other features such as a light and hood are optional extras, which may or may not be included when you pick a lifejacket off the shelf. Make sure you know what your lifejacket includes and how everything works.

### Spray Hood

The Spray Hood stores in the lifejacket after being fitted. Designed to fit over your head and inflated lifejacket to make you more visible and to reduce the amount of spray you inhale. Compatible with Crewfit 180N Pro

- Stored inside your lifejacket
- Fits over the wearer's head and the inflated lifejacket
- Reduces spray being inhaled
- Makes the wearer more visible

Code	Description
10056	Compatible with Crewfit 180N Pro
SUPFITHOOD150HF/180	Crewfit 180N Pro Spray Hood - Supply & Fit

### Pouch Spray Hood

The Spray Hood stores in a pouch on your waist belt to keep at hand for when the conditions deteriorate. Designed to fit over your head and inflated lifejacket to make you more visible and to reduce the amount of spray you inhale. Compatible with Crewfit 165N Sport.

- Stored in a black pouch on the waist belt
- Fits over the wearer's head and the inflated lifejacket
- Reduces spray being inhaled
- Makes the wearer more visible

Code	Description
10057	Compatible with Crewfit 165N Sport
SUPFITHOOD150/165	Crewfit 165N Sport Spray Hood - Supply & Fit

## ErgoFit Safety Knife

The ErgoFit Safety Knife is designed to be safe to carry with you at all times on the water, but highly effective should you need to cut through ropes in an emergency. Highly visible, it is lightweight and supplied in a slim, durable casing that can be attached to your lifejacket.

- Safety blade for safe stowing
- Constructed from durable nylon plastic
- Ergonomically designed for fast release cut
- Carry pouch included for attachment to lifejacket

1310-SK

## Smartfind S20 AIS MOB Device

Designed to be fitted to a lifejacket the S20 Smartfind is ready to be activated in the event of a man overboard situation. Once activated the unit then transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Automatic deployment when correctly fitted into the ErgoFit and Crewfit Pro lifejackets
- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

Code	Description
11084	Smartfind S20 AIS MOB Device
SUPFITTS20	Smartfind S20 AIS - Supply & Fit

## Spare Whistle

Keep one on your lifejacket and waterproof jacket so that you always have it to hand should you need it. Designed not to clog so it works perfectly when you really need it to.

10677

## Surface Light (CSL)

This flashing light meets all relevant safety standards to keep you visible in the worst of scenarios.

- SOLAS approved
- High powered white LED light
- Flashes for optimum visibility
- Optimum output levels exceed 3cd
- Powered by lithium-ion battery
- Activates on contact with water
- Includes attachment for oral tube, suitable for lifejackets with no specific light attachment point

Code	Description
10220	Surface Light (CSL)
SUPFITCSL	Surface Light (CSL) - Supply & Fit

## Safety Lines

For use with your safety harness, these safety lines are available with or without a load indicator. The load indicator option activates when the line is placed under an extensive load of 7000-9000 newtons. There is additionally a warning label which, when exposed, means the safety line should be replaced as soon as possible.

- Coloured yellow for visibility
- Load indicator and warning label

View product details on page 51.

## Crotch Straps

Fit to your inflatable lifejacket's or buoyancy aid's attachment points for a more secure fit and to hold you in a safer position in the water. Can be retro fitted to all inflatable lifejackets.

- Detailed instructions included to ensure correct fitting

10032

Crewsaver

## Lifejacket Bag

With multiple handles the Crewsaver lifejacket bag is a great solution for transporting and storing lifejackets when not in use. The universal fit can hold approximately 4-5 lifejackets.

10475	60 g	Crewsaver 290N lifejackets

## ErgoFit Hammar Rearing Packs

Rearing packs for ErgoFit Hammar lifejackets are available for the following listed below:

Suitable for all ErgoFit Hammar lifejackets found in this brochure

Code	Size	Description
11306	38 g	ErgoFit 190N Hammar Rearm Pack
11307	60 g	ErgoFit 290N Hammar Rearm Pack
11308		ErgoFit Hammar Auto Capsule / Hammar Head

## Replacement CO<sub>2</sub> Cylinders

Replacement Crewsaver CO<sub>2</sub> Cylinders are available for the following listed below:

Suitable for all automatic and manual gas lifejackets found in this brochure

Code	Size	Product
10479	23 g	Junior Crewfit lifejackets
10014	33 g	Crewsaver 150N & 165N lifejackets
10034	38 g	Crewsaver 180N & 190N lifejackets
10470	60 g	Crewsaver 275N & 290N Lifejackets

## Hammar Rearing Packs

Rearing packs for Hammar lifejackets are available for the following:

Code	Size	Product
11010	33 g	Hammar for Crewsaver 150N lifejackets
12015	33 g	Hammar MA1 for CWX
11011	60 g	Hammar for Crewsaver 275N lifejackets
11030	60 g	Hammar MA1 for Crewfit 290N

## Replacement Capsules

Crewsaver lifejacket replacement capsules are available for the following listed below:

Code	Type	Product
11341	UML Elite	Pro Sensor - New ErgoFit and Crewfit lifejackets
10062	MK5i Black	Newer style lifejackets (2013 onwards) with serial starting 'L' Suitable for all automatic gas lifejackets found in this brochure
10061	MK5i Blue	Older style lifejackets with serial starting '0-9' or 'R'
11012	Hammar Manual	Converts Hammar to manual
11014	Hammar Automatic	Auto capsule for Hammar inflated lifejackets 275N & 290N Lifejackets

# BUOYANCY AIDS

## Revolution in Buoyancy Aid Technology

A large percentage of the boating world still do not wear any kind of personal flotation device. As a manufacturer of integral safety equipment the challenge for Crewsaver has been to reduce this number through the design of comfortable and stylish buoyancy aids suitable for a multitude of watersports activities. So whether you are sailing recreationally or racing, powerboating or paddling, this range will provide the perfect buoyancy aid for you.

**FUSION 3D®**

Uniquely contoured soft foam paneling moulds to the shape of your body to provide an unrestricted and comfortable fit - so comfortable you will forget you are wearing it.

Stretch-to-fit breathable shoulder pads

Hydration tube exits

Removable hands-free Spare Air attachment point

Fusion 3D contoured soft foam paneling

Low profile sculpted design

Ergonomic curved zip

Durable outer cover material

Stretch-to-fit breathable side panels

Airmesh airflow technology

**ERGOFIT 50 EX**

With added ErgoFit Safety Knife & Spare Air

# THE COMPLETE BUOYANCY AID RANGE

Just like the popular Crewsaver Fusion 3D lifejacket range, the new buoyancy aids feature Fusion 3D technology to provide a uniquely unrestricted and comfortable fit. The range, consisting of five trailblazing designs, features combinations of lightweight and soft contoured buoyancy foam which is encased in finely tailored covers to support the designed-to-fit profile.

## ErgoFit 50N EX

**A revolution in buoyancy aid technology.**

The ErgoFit 50N EX 'High Impact' buoyancy aid, a revolution in personal safety equipment, providing the most advanced safety specification a buoyancy aid has ever offered to date. Through the partnership with Artemis Racing, Crewsaver was able to develop this innovative buoyancy aid. Now this same technology has been made available to all sailors, giving everybody the opportunity to benefit from the same safety and performance technology as an America's Cup sailor!

- Breathable airflow technology
- Low profile sculpted design
- Dual adjustment for optimal fit
- Large slimline front pocket
- Removable hands-free Spare Air pocket
- Concealed back pocket for hydration pack
- Hydration tube exits
- Stretch-to-fit breathable side and shoulder panels
- Ergonomic curved zip
- Quick access line cutter stowage
- Available with and without Forcefield body armour protection

With added ErgoFit Safety Knife & Spare Air

FUSION 3D

## Pro 50N CZ

A Fusion 3D design buoyancy aid with unique body shaping foam that adapts to the profile of the wearer for the ultimate in unrestricted comfort and performance. Breathable airflow mesh is featured on the internal back panel to allow for less build up of heat and greater comfort. The durable cover integrated with an extra large expandable storage pocket and attachment point makes this the perfect storage companion for a multitude of surface watersports.

- Sculpted shape for extra comfort and manoeuvrability
- Lightweight supersoft foam construction
- Extra large expandable storage pocket with attachment point
- Stretch mesh shoulder straps and side panels
- Secure fit dual waist adjusters with webbing tidy
- Crotch straps on junior versions
- Also available in a side zip option. See Pro 50N 'SZ'

## Pro 50N SZ

A Fusion 3D design buoyancy aid with unique body shaping foam that adapts to the profile of the wearer for the ultimate in unrestricted comfort and performance. Breathable airflow mesh is featured on the internal back panel to allow for less build up of heat and greater comfort. The durable cover integrated with an extra large expandable storage pocket and attachment point makes this the perfect storage companion for a multitude of surface watersports. Sculpted shape for extra comfort and manoeuvrability

- Lightweight supersoft foam construction
- Extra large expandable storage pocket with attachment point
- Stretch mesh shoulder straps and side panels
- Side waist adjuster with webbing channel
- Crotch straps on junior versions
- Also available in a centre zip option. See Pro 50N 'CZ'

Sizes J S/M M/L XL XXL

Not available in XXL

## Sport 50N

Adjustable shoulder and dual waist straps combined with a unique arrangement of lightweight and soft foam provides a bespoke and comfortable fit. This centre zip buoyancy aid features reflective piping and an easily accessible expanding storage pocket with attachment point. The Sport 50N provides the perfect option for those who seek a high quality product at a highly competitive price point.

- Lightweight supersoft foam construction
- Reflective detailing
- Large expandable storage pocket with attachment point
- Key pocket
- Crotch straps on junior versions

Sizes J S/M M/L XL XXL

## Response 50N

The Response 50N provides an entry level buoyancy aid with an advanced contoured foam construction helping to ensure correct comfort and fit when worn. In addition, the Response 50N houses an array of features including a centre zip, padded shoulder straps, adjustable waist, key pocket and reflective print detailing.

- Lightweight foam construction
- Reflective detailing
- Crotch straps on junior versions
- Adjustable waist belt with webbing channels
- Key pocket

## Four B 70N

Designed for increased impact protection and buoyancy for those travelling at high speeds on the water and general surface watersports. The 360 degree foam protection is constructed from unique Fusion 3D sculpted foam which moulds to the shape of the wearer. The design is both low profile and lightweight to create an unrestricted and comfortable fit.

- 360° sculpted foam for extra comfort
- Lightweight foam construction
- Super-fast mesh drainage
- D-Ring attachment point
- Reflective detailing
- Robust fabric
- Multiple adjustment points
- Crotch straps on junior version

Sizes J S/M M/L XL XXL

## Centre Zip 70N

A front zip allowing easy, jacket-style donning makes this buoyancy aid ideal for use in busy watersports centres. With a highly durable construction and full range of quick-pull, safe-lock adjustment straps, it offers a great fit and unhindered movement coupled with comfort and security.

- For convenience, each size is clearly colour-coded
- Outer body made from 500D cordura with 420D nylon lining
- 40mm polypropylene webbing shoulders with a 25 mm polypropylene adjustment strap and heavy-duty ladder locks
- Heavy-duty front zip for ease of donning, secured by a 25 mm side release buckle
- Full side adjustment
- Child/Junior size fitted with adjustable thigh straps

# LIFERAFTS

**When it comes to the worst, you require the best.**

With over 60 years of industry experience, Crewsaver is recognised as one of the foremost suppliers of lifejackets and marine safety equipment in the world in both the leisure and commercial sectors.

Being a part of Survitec gives us the opportunity to provide a liferaft service solution that is unmatched across today's markets. Our mission is to continually strengthen our position as a leading global liferaft supplier to the marine industry through customer focus, product excellence and technical innovation.

Combined with our unique lifejackets, Aurora distress signals, and safety equipment alongside McMurdo emergency beacons, Crewsaver liferafts create the most comprehensive safety range available. So you can be rest assured - when it comes to the worst, that you have the best.

## SERVICING

Survitec has an extensive network of service stations globally to help ensure an effective and efficient servicing process for your long term convenience and continued safety. In addition, the rafts come complete with a 12 year warranty providing they are serviced by a Crewsaver approved service station.

Crewsaver

Liferafts

# ISO Ocean Liferaft

Using our skills and expertise in the design and manufacture of both liferafts and lifejackets we have created the most advanced specification ISO Ocean liferaft yet. The Crewsaver ISO Ocean liferaft improves both safety and performance for you and your crew. It is approved to ISO 9650-1 standards and includes an extended three year service period. Manufactured using highly durable, long lasting Polyurethane (PU) coating helping to ensure the raft remains flexible, abrasion resistant, highly reliant, and chemically inert.

- Superb value coupled with high manufacturing quality and standards
- Easy to transport with a choice of valise or small, lightweight container with side handles
- High volume of water pockets to ensure maximum stability (4 Man - 2 x 84 L water ballast pockets. 6, 8 and 10 Man - 3 x 84 L water ballast pockets. 12 Man - 5 x 60 L water ballast pockets)
- A semi-rigid boarding ramp for quick, easy and safe boarding
- Tough polyurethane coated nylon canopy
- Simple zip closed canopy door
- Interior and exterior lifelines for extra safety in heavy seas
- External strobe light to aid night location by search and rescue teams & Internal LED light
- Rainwater catcher and collection system located on the rear of the canopy
- Lookout sleeve located on the side of the canopy
- Emergency ration packs available for under or over 24 hour rafts

Crewsaver

■ Rainwater catcher on the rear of the canopy

■ High visibility SOLAS standard reflective tape to aid visibility

■ Internal SOLAS standard LED light

■ Interior and exterior lifelines help occupants stabilise themselves in heavy seas

■ Easy to locate righting lines in case of accidental capsize

■ External SOLAS standard strobe light attached to the roof of the canopy, makes it easier for search and rescue teams to locate in darkness

■ Lookout sleeve located on the side of the canopy

■ Simple zip-closed canopy door

■ Thermally insulated floor

■ A semi-rigid boarding ramp and webbing ladder for quick, easy and safe boarding, in addition to interior and exterior lifelines

■ High volume water ballast pockets ensure maximum liferaft stability when inflated  
- 4 Man - 2 x 84 litre water pockets  
- 6, 8 & 10 Man - 3 x 84 litre water pockets  
- 12 Man - 5 x 60 litre water pockets

■ PU tubes with taped corners to aid longevity

■ Exterior pressure relief valves ensure excess CO<sub>2</sub> is not released into the liferaft

■ The canopy is manufactured in a tough Polyurethane (PU) coated nylon - 170g/sqm

## Mariner Liferaft

Designed with coastal use in mind for recreational sailing and powerboat activity, the Crewsaver Mariner liferaft is the ideal solution for those looking for a high quality yet affordable liferaft. The Mariner liferaft is manufactured by Survitec Group's liferaft manufacturing facility in Italy who have been designing and manufacturing liferafts for both the commercial and leisure markets since 1977.

This raft can be serviced at a number of Survitec's extensive network of service stations globally to help ensure an effective and efficient servicing process for your long term convenience and continued safety. In addition the raft comes complete with a 12 year warranty providing it is serviced by a Crewsaver approved service station every 3 years.

- Easy to transport with a choice of valise or small, lightweight container with side handles
- 2x 45ltr weighted water ballast pockets
- Cylinder/boarding platform front and boarding ladder back
- Bright orange top canopy which can be opened and closed from either side of the raft
- Additional reflective tape to aid visibility
- Rain water catcher located on the rear of the canopy
- Lookout sleeve located on the rear of the canopy
- High quality PVC orange tubes to ensure longevity and aid visibility
- 3 year service interval and 4 year inspection form date of manufacture
- Optional extra cradle, webbing assembly and HRUs are also available

## Hammar H20 Standard SOLAS HRU

The Hammar H20 is a Hydrostatic Release Unit (HRU) designed to fit liferafts of all shapes and sizes. It is made of glass fibre reinforced nylon, which prevents it from corroding. The Hammar H20 needs no annual service, maintenance or spare parts. You simply install a new one every two years and dispose of the old one. With the environment in mind, the old unit is 97% recyclable.

For smaller liferafts (from 4 persons and outside SOLAS regulation) we recommend Hammar H20 Small Rafts model with a special weak link, identified by the green lower thimble (breaking strength 1,2  $\pm$  0,4 kN).

LSHRUHM

## Hammar H20 for Small Rafts HRU

This model is designed for liferafts from 4 up to 12 persons and outside SOLAS regulations. The Hammar H20 for small rafts consists of a double looped white rope line, a release mechanism and a Red Weak Link with a green lower thimble (breaking strength 1,2  $\pm$  0,4 kN). The Hammar H20 needs no annual service, maintenance or spare parts, but must be replaced after 2 years of use.

# DISTRESS SIGNALS

## AURORA PYROTECHNICS

Survitec has been successfully distributing pyrotechnics to the global commercial marine sector for over 8 years. Now uniting our expertise, Crewsaver in partnership with PainsWessex bring you the Aurora pyrotechnic leisure range. The Crewsaver Aurora range has something to offer the recreational boater at every level; Ranging from daytime compact Lifesmokes, to the brand new, innovative Sky-Lite 2 Star Aerial Distress Flare.

### RORC Flare Package

Crewsaver's RORC Flare Package is fully compliant for RORC racing providing a comprehensive range suitable for a multitude of conditions to signal distress in an emergency situation. This package also contains white handflares that can be used as a collision warning or to illuminate small areas. The RORC Flare Package includes a buoyant and waterproof 12lt poly bottle, ideal for storage.

- 4 x Red Parachute Rocket
- 4 x Red Handflare
- 2 x Lifesmoke
- 4 x White Handflares
- 1 x 12 L Poly Bottle

11609

### Offshore Flare Package

For use when more than 7 miles from land. Crewsaver's Offshore Flare Package contains a comprehensive combination of propelled and handheld flares of both long and short visibility range designed to signal distress in an emergency situation. The buoyant Lifesmoke can be used to indicate position and wind direction once potential rescuer is sighted. This package also includes a buoyant and waterproof 12lt poly bottle, ideal for storage.

- 4 x Red Parachute Rocket
- 4 x Red Handflare
- 2 x Lifesmoke
- 1 x 12 L Poly Bottle

11610

## Coastal Flare Package

For use when less than 7 miles from land, to raise alarm and pinpoint your position by night or day. The Crewsaver Coastal Flare Package contains both long and short range distress signals designed to be used in an emergency situation. The Orange Handsmoke can also be used to indicate position and wind direction once potential rescuer is sighted. This pack is supplied with a buoyant and waterproof 3lt poly bottle, ideal for storage.

- 2 x Red Parachute Rocket
- 2 x Red Handflare
- 2 x Orange Handsmoke
- 1 x 3 L Poly Bottle

11611

## Aerial Inshore Flare Package

For use when less than 3 miles from land, to raise alarm and pinpoint your position by night or day, includes the Sky-Lite aerial flare which has additional visibility of 10-12 kg (6-7 miles).

- 2 x Sky-Lite 2 Star Red Aerial Distress Flares
- 2 x Red Handflare
- 2 x Orange Handsmoke
- 1 x 3 L Poly Bottle

11612

## Inshore Flare Package

For use when less than 3 miles from land, to raise alarm and pinpoint your position by night or day. The Aerial Inshore Flare Package is a great short to medium range flare pack. This unique package features the innovative Sky-Lite 2 Star Red Aerial Flare that propels 2 red flares to 60m. This compact flare package includes a waterproof and buoyant 3lt poly bottle, ideal for storage.

- 2 x Red Handflare
- 2 x Orange Handsmoke
- 1 x 3 L Poly Bottle

11613

## Sky-Lite 2 Star Red Aerial Distress Flare

This flare propels not only one but two red flares to 60m (200ft) by hand held launcher. Provides a new alternative to the distress flare market when multiple flare use is required. Compact and hand held this flare can be used to signal distress by day or night.

- Visibility: 10-12km (6-7 miles).
- Light intensity: 10,000 candela
- Flare type: 2 propelled red flares
- Burn time: 5.5 seconds
- Height: 60 m (200 ft)
- Used to signal distress day or night
- Up to 4 year life

11600

## Red Parachute Rocket

The Aurora Red Parachute rocket is a long range aerial distress signal. Designed to withstand exceptional environmental exposure and to perform reliably even after immersion in water.

- Ejects a red parachute flare at altitude 300 m (1000 ft)
- Visible up to 30 miles away
- Burn time: 40 seconds
- Light intensity: 30,000 candela
- Ignition: Pull wire
- Up to 4 year life

11603

## White Handflare

The White Handflare is for use as a collision warning signal or for illumination of small areas. Designed to withstand exceptional environmental exposure and to perform reliably even after immersion in water. Also available is the similar Red Handflare, which is used to signal distress.

- Produces hot white flame
- Burn time: 60 seconds
- Light intensity: 2,500 candela
- Ignition: Pull wire
- Unique telescopic handle making it very compact for storage and easily extended for use
- Up to 4 year life

11605

## Red Handflare

For use by day and night, the Red Handflare is a short range distress signal used to pinpoint position when potential rescuer is sighted. Designed to withstand exceptional environmental exposure and to perform reliably even after immersion in water. Also available is the White (collision warn-off) Handflare.

- Hot red flame
- Burn time: 60 seconds
- Light intensity: 15,000 candela
- Ignition: Pull wire
- Used to signal distress and pinpoint location day or night
- Weight max: 176 g (6.2 oz)
- Up to 4 year life

11601

## Orange Handsmoke

The Orange Handsmoke is a short range, hand-held marine distress signal for daytime use to indicate position and wind direction once potential rescuer is sighted.

- Produces dense orange smoke for 60 seconds
- Ignition: Pull wire
- Distress signal for daytime use
- Up to 4 year life

11602

## Lifesmoke

The Lifesmoke is a buoyant, compact, daylight distress signal designed to be easy and safe to handle. It provides effective position marking during rescue operations and can be used to indicate wind direction.

- Produces dense orange smoke for a minimum of 3 minutes
- Buoyant
- Ignition: Percussion ignitor with 2 seconds safety delay.
- Safe to use on oil or petrol covered water.
- Distress signal for daytime use
- Up to 4 year life

11604

## Odeo Distress LED Flare

The Odeo Distress flare illuminates for around 8 hours at full illumination. Because no pyrotechnics are used, it is totally safe when switched off, and because it uses battery power (high power Lithium or Alkaline cells), it can even be safely posted or carried in baggage on flights.

- No heat, no flames, no risk
- No explosive compounds for shipping or disposal
- Increased Safety
- Longer operating life – now 8 hours 25% more than the ODEO Mk3
- Supplied with lanyard
- Search and Rescue aircraft safe
- Ideal for diving; tested to 50 meters for 1 hour
- Floats
- Easy user battery change
- Now includes IR LED for NVG search and rescue
- SOS Signal built in
- Small compact design (grab bag item)
- Simple activation (with wet or gloved hand)
- Dual function including flicker and SOS strobe

900251

## Poly Bottles

Robust and buoyant containers which are the ideal solution for storing distress flares. Complete with handle and textured lid for easy opening and handling in an emergency.

Code	Size	Product
11607	3 L	Small Poly Bottle
11608	12 L	Large Poly Bottle

Distress Signals

# MCMURDO PRODUCTS

McMurdo survival products - a world leader in the design and manufacture of state-of-the-art emergency beacons - including EPIRBs and PLBs.

## AIS or PLB? We have the answers

Whether you work or play on the water, having the right search and rescue devices is critical for your personal safety. Whilst an EPIRB will indicate the location of the boat in the event of an emergency, AIS Man Overboard devices (AIS MOB) and Personal Locator Beacons (PLB) stay with the individual to ensure their location is also tracked.

### Personal Location Beacon (PLB)

- ✓ Sends distress signal to official COSPAS-SARSAT search & rescue (SAR) network
- ✓ Primarily designed for global rescue
- ✓ Recommended for solo sailors and those operating in remote locations away from local help

### Automatic Identification System Man Overboard (AIS MOB) devices

- ✓ Transmit distress signal to local vessels with AIS receivers and AIS enabled chart plotters within a 4 mile radius (minimum)
- ✓ Designed to cut recovery time by enabling crew to locate and rescue. This drastically improves chances of survival
- ✓ Recommended for those operating where help is close at hand, from crew or other local vessels equipped with AIS receivers and AIS enabled chart plotters

## Fast Find 220 PLB

Explore the world with peace of mind. The Fast Find 220 Personal Locator Beacon is a lifesaving distress beacon with integral buoyancy pouch, designed for marine enthusiasts and adventurers. It uses advanced technology packed into a lightweight, palm sized unit to transmit your ID and position to the search and rescue satellites. Within minutes rescuers are alerted to your situation and receive regular position updates. The emergency services then home in on your beacon's transmission to find you. It's all you need to contact help should the unexpected happen.

- 406/121.5MHz PLB
- Easy to operate
- No subscription needed
- High brightness LED SOS light
- Minimum 24hr continuous operation
- 6 year battery storage life
- Self test facility with battery use indicator
- Supplied with flotation pouch

11060-C

## Smartfind S20 AIS MOB Device

Designed to be fitted to a lifejacket the S20 Smartfind is ready to be activated in the event of a man overboard situation. Once activated the unit then transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Automatic deployment when correctly fitted into the ErgoFit and Crewfit Pro lifejackets
- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

11084

## Smartfind G8 AIS

MEOSAR Compatible® for enhanced detection and location performance, the G8 range includes an industry first; a four-frequency EPIRB, combining the global alerting of 406 MHz with the localised locating and tracking power of AIS.

- Faster alert detection on the 406 MHz frequency through MEOSAR compatibility
- The world's first QUADROTECH® EPIRB, with four search and rescue frequencies, the SmartFind G8 AIS supports the Alert, Locate, Tracking and Recovery elements of search and rescue
- Greater location accuracy by receiving GNSS coordinates from a wider range of satellite constellations
- World's first convergence of 406 and AIS, combining the global alerting of 406 MHz with the localised locating and tracking power of AIS
- The only EPIRB manufacturer that also builds and supports the Cospas-Sarsat ecosystems infrastructure, making the benefits of MEOSAR a reality

Smartfind G8 AIS in Auto Housing

11111	MCMURDO G8 AIS SMARTFIND - AUTO

## Smartfind S10 AIS MOB Device

The Smartfind S10 is designed to be activated in the event of a man overboard situation or other personal crew emergency. The unit transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 5 year battery storage life

11065

## Smartfind S5 SART

Stored in a quick release carry off bag, the rugged S5 Smartfind is buoyant and waterproof to a depth of 10 m. When activated, the S5 transmits an alert message.

- High visibility
- Shoulder strap to aid carrying in emergency evacuation
- 96 hours of continuous transmission

11079

## HRU Replacement Kit

Replacement hydrostatic release unit to fit the following EPIRB's.

- E4
- G4
- Precision
- Rescue
- E5
- G5
- RT260M
- McM406A

11072

## Spare parts

### E5/G5 Smartfind Auto Float Free Housing\*

Supplied with a float-free housing, the Smartfind E5 or G5 EPIRB automatically deploys and activates the EPIRB if the boat is sinking.

\* Excludes HRU kit

## Hamble Horseshoe Buoy, Bracket & Light Set

The Hamble Horseshoe buoy, bracket and light set is one of the most compact lifebuoy sets on the market today. Ideal for both yachts and motorboats, this is an essential piece of equipment in case of a man overboard.

- Flashing, SOLAS approved LED light
- Available in white or yellow
- Compact solutions
- Lithium battery
- Maximum 5 year life on the battery

Super soft foam

Light operates using a lithium battery with 5 year life

Flashing, SOLAS approved LED light

# RESCUE AND SAFETY

Code	Description	
100030	Hamble Horseshoe Buoy, Bracket & Light Set	Yellow
100031	Hamble Horseshoe Buoy, Bracket & Light Set	White

## Purchase as individual items to upgrade your existing lifebuoy

### Horseshoe Buoy

Ideal for both yachts and motorboats, this is an essential piece of equipment in case of a man overboard.

- Layered EPE foam for the ultimate in buoyancy
- Tough outer PVC material to ensure longevity
- Available in white or yellow

Code	Description
1320-BUOY	Horseshoe Buoy
1321-BUOY	Horseshoe Buoy

### Hamble Horseshoe Light

The Hamble Horseshoe Light uses the latest LED technology featuring low current consumption and enhanced reliability. A bright flashing light to help enhance visibility should a crew member fall overboard during the night.

- SOLAS Approved
- Maximum 5 year life on battery
- Over 30 m drop height
- Lithium battery

900013

### Hamble Horseshoe Bracket

Constructed from stainless steel the Hamble Horseshoe Bracket combined with the Hamble Light is the ideal solution for anyone looking to update their Crewsaver Horseshoe Buoy to be suitable for use at night.

- Constructed from stainless steel
- Easy installation

9000014

### Throwing Strop

Ensure a fast rescue with just one piece of equipment. The throwing strop provides an innovative combination of both rescue line and lifting strop. A unique padded lifting strop enables a comfortable and accurate recovery.

- Durable outer fabric
- 30 m high-strength line
- Strop attached with strong Velcro for ease when stowing and throwing

1320-STROP

### Lifeline

An essential piece of lifesaving kit that no boater should leave the dock without. Protected by a compact, durable and hi-visibility housing, the 20 m lifeline is constructed from 200D nylon to guarantee strength and performance even in extreme conditions.

1320-LIFE

### Rescue Sling

The Crewsaver rescue sling provides a pre-shaped design ensuring easy donning so that a casualty can be recovered from the water safely and quickly should you be in an unexpected man overboard situation.

- Tough PVC outer fabric to aid long life
- 30 m high-strength line

1320-SLING

Crewsaver

Rescue and Safety

## Safety Lines

For use with your safety harness, these safety lines are available with or without a load indicator. The load indicator option activates when the line is placed under an extensive load of 7000-9000 newtons. There is additionally a warning label which, when exposed, means the safety line should be replaced as soon as possible.

- Coloured yellow for visibility
- Load indicator and warning label

6222-15	15M THROW BAG

## Buoyancy Bags

Built from the highest quality abrasion resistant PU coated nylon with leak-free welded construction, Crewsaver buoyancy bags are long lasting and available in sizes to fit most dinghies.

- PU coated nylon
- Welded construction
- Long lasting and abrasion resistant
- 18 to 193 L of buoyancy

Code	Description
10123	Pillow Buoyancy Bag - 24 x 7
10124	Pillow Buoyancy Bag - 30 x 9
10125	Pillow Buoyancy Bag - 36 x 12
10126	Pillow Buoyancy Bag - 39 x 9
10128	Pillow Buoyancy Bag - 48 x 8
10129	Pillow Buoyancy Bag - 48 x 14
10130	Pillow Buoyancy Bag - 50 x 10
10131	Pillow Buoyancy Bag - 58 x 9
10133	Buoyancy Bag - Flying 15 Single
10134	Buoyancy Bag - Optimist. Yellow

## ErgoFit Safety Knife

The ErgoFit Safety Knife is designed to be safe to carry with you at all times on the water, but highly effective should you need to cut through ropes in an emergency. Highly visible, it is lightweight and supplied in a slim, durable casing that can be attached to your lifejacket.

- Safety blade for safe stowing
- Constructed from durable nylon plastic
- Ergonomically designed for fast release cut
- Carry pouch included for attachment to lifejacket

1310-SK

## Crewlift 40 Bosun's Chair

A safe and comfortable bosun's chair is a prerequisite for when a crewman goes up the mast to check the rigging or to make essential repairs. The Crewlift 40 is a simple solution with advanced safety features built-in. Manufactured from strong PVC coated nylon with welded stainless steel attachment triangles and a removable wooden seat, it gives you confidence while you work overhead.

- Complete with an adjustable waist belt and thigh straps for a secure fit
- Detachable tool pouch and webbing tool rack to carry essentials safely and keep your hands free

11302

## Mast Head Floats

Designed to give extra confidence to those new to sailing or learning new skills, mast head floats can help reduce the risk of boats inverting during a capsize. Available in 9 or 40 L of buoyancy, the Crewsaver Mast Floats have a heavy-duty fabric construction to ensure they work to their optimum all season long.

- Designed in conjunction with sailing centres in both the UK and abroad
- Only effective when correct buoyancy float is fitted - owners are responsible
- Not suitable for boats without anchoring

**Please remember: Crewsaver Mast Floats do not guarantee to stop a boat inverting and their performance can be hindered by the conditions. Such conditions include a strong tide, wind, swell or incorrect righting procedure.**

Code	Description
10085	Mast Head Float 9 L
10086	Mast Head Float 40 L

# MARKER BUOYS

As used for the 2012 Olympic Games, Crewsaver inflatables are excellent quality offering great visibility and high durability. In addition, Crewsaver also offers a branding and custom made service; special colours, shapes and sizes are all a possibility if required.

## Cylindrical Buoy

Constructed with durable double skin and inner inflation chamber. Stands up tall to aid visibility on long race courses.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

Code	Buoy	Size	Description
3810-4'	Cylindrical	1.22 m	H1.22 m x D0.61 m (H4' x D2')
3810-5'	Cylindrical	1.52 m	H1.52 m x D0.76 m (H5' x D2'6")
3810-6'	Cylindrical	1.83 m	H1.83 m x D0.76 m (H6' x D2'6")

## Dumpy Buoy

Easy to move around for forever moving race courses. Constructed with a durable double skin and inner inflation chamber.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

Code	Buoy	Size	Description
3811-2'6	Dumpy	0.76 m	H0.76 m x D0.76 m (H2'6" x D2'6")
3811-5'	Dumpy	1.62 m	H1.62 m x D1.17 m (H6' x D3'10")

## Pyramid Buoy

Constructed with a durable double skin and inner inflation chamber. The Pyramid buoy offers an alternative to the dumpy buoy.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

Code	Buoy	Size	Description
10076	Pyramid	1.52m	Each edge 1.52m (Each edge 6')

## Training Mark

This is an easy to use training mark that can be quickly and easily laid for a huge variety of training exercises. Easy to inflate by mouth on the water, it is twin-skinned for durability and comes complete with its own weight bag. Perfect for sailing schools and coaches.

- Simple training aid
- Mouth inflation
- Strap for easy recovery
- Inflatable twin skin and weight bag

Code	Buoy	Size	Description
10079	Inflatable training	1.9 m	Inflatable twin skin with weight bag mark buoy 1.9 m x 0.3 m (6'2" x 1')

## Reinforced Training Mark

This bright orange training mark has a black stripe for high visibility and a strong PU coated nylon construction strengthened by webbing.

- High frequency welded inflator
- Includes flag pole holder and pocket for strengthening baton
- Internal 'sand' bag for maintaining vertical altitude
- Three webbing handles and strengthened webbing construction
- Can be packed flat when sand bag is empty

Code	Buoy	Size	Description
10074	Reinforced training mark	1.9 m	Inflatable single skin 1.9 m x 0.3 m (6'2" x 1')
10075	Insert for reinforced training mark	1.3 m	Inflatable twin skin with weight bag 1.3 m x 0.3 m (4'2" x 1')

Crewsaver

# WATERSPORTS CLOTHING

## Race Top

The Crewsaver Race Top sets the bar for breathable performance thermals. Its waterproof fabric (with a 10 K hydrostatic head) is fused with soft internal fleece lining providing the thermal protection needed to stay on the water for longer. Another benefit is the additional thermal protection offered by the foldable collar for optional face coverage. Lightweight and compact, the Crewsaver Race Top is an unmissable addition for any watersport enthusiast

- Waterproof fabric to 10 K and breathable to 5 K
- Fleece lined
- Fully taped seams
- Thermal collar with elastic adjustment
- Reflective sleeve print
- Adjustable neoprene waistband
- Adjustable PU cuffs
- Articulated arms for movement

Sizes J S M L XL

6971

## Spray Top

The Crewsaver Spray Top is the perfect solution for those seeking the next level in performance technology. The durable fabric has a hydrostatic head waterproof rating to 20 K and is breathable up to 6 K, making this one of the most advanced and affordable spray tops on the market. With uniquely tailored panels, the articulated shape of this spray top provides much sought-after unhindered freedom of movement.

- Durable waterproof fabric to 20 K and breathable to 6 K
- Fully taped seams
- Front accessible pocket with plastic zip and water drainage
- Reflective sleeve print
- Adjustable neoprene waistband
- Adjustable PU cuffs
- PU Adjustable neck seal
- Articulated arms for movement

Sizes J S M L XL

6970

## Spray Cag

So, you want to be out on the water and you want kit that works without the fripperies. Waterproof fabric with adjustable collar and cuffs, the Crewsaver Spray Cag is breath-taking simplicity at its best.

- Elasticated waistband for versatile fit
- Adjustable PU cuffs
- Single adjustment PU collar

Sizes J S M L XL XXL

6975

Crewsaver

Performance Clothing

# The Atacama Drysuit Range

With 3 layer breathable fabric, Crewsaver's Atacama Pro and Atacama Sport drysuits rival their namesake desert as the driest place on Earth. The Glideskin neoprene wrist and neck seals, plus latex socks, further help to keep the water at bay - meaning your boating doesn't have to end when the summer season does.

/// THE ATACAMA [AT-UH-KAM-UH] DRYSUIT RIVALS ITS NAMESAKE DESERT AS THE DRIEST PLACE ON EARTH

## Atacama Pro Drysuit

Designed using 3 layer breathable technology and enhanced waterproof properties to keep you warm and dry whilst out on the water. A unique lower stretch mesh back panel adjustable braces, articulated arms and legs create a custom-fit to provide the ultimate in freedom of movement.

Performance Clothing

## Zip Boot

If you prefer the additional foot protection and stability afforded by a more substantial zip-up boot over a slipper style boot, the zip boot design is the ultimate sailing footwear for you. Constructed from 5 mm neoprene, it is warm and durable while the boot style gives plenty of reinforcement around the toes, heel and hiking area.

- 5 mm neoprene construction for warmth and durability
- Side zip with neoprene gusset for easy donning
- Reinforced toe
- Reinforced hiking and heel area protection
- Moulded high grip sole
- Neoprene gusset back up

Sizes 3 – 13

6940

## 3/4 Boot

When you're racing or training, hiking or trapezing, you'll want footwear that gives you support, grip, flexibility and a secure foothold around the boat. The 3/4 Boot gives you all that, plus, the warmth of 5 mm neoprene. It provides outstanding performance in all areas so that you can take your footwork for granted.

- Ideal for hiking and trapezing
- 5 mm neoprene construction for warmth and durability
- Front entry with Velcro fastening ensures bespoke fit
- Heel, arch and toe support
- Reinforced front hiking support
- Moulded high grip sole

Sizes 4 – 13

6941

## Granite Shoe

With a 3mm neoprene construction, the Granite Shoe is a warm slipper suited to all types of watersports.

- 3mm Neoprene construction for warmth
- Velcro front entry for easy donning
- Moulded high grip sole

Sizes 2 – 11

6943

## Aplite Shoe

The Aplite is a superb neoprene beach shoe with a moulded high-grip sole for comfort and foot protection. With the drawstring at the ankle providing a secure fit, you'll feel nimble both on and off the water.

- 2.5 mm neoprene construction
- Drawstring ankle adjustment
- Moulded high grip sole

Sizes Child 10 – Adult 11

6942

## Slate Sock

Ideal for light use on their own or as an additional insulation layer in your existing boots, these neoprene pre-shaped socks provide warmth, comfort and grip.

- Glued and blind stitched neoprene construction
- 3D shaped for maximum comfort
- Anti-slip printed sole for grip

Sizes 4 – 11

6946

## Crewsaver Boots

An excellent boot for use in all types of marine environments. The specially constructed inner keeps you warm and comfortable while the razor-cut grip keeps you surefooted no matter how wet the deck.

- Drawstring and gusset\*
- Excellent for launching and recovery
- Tailored marine environment sole for wet slipways, decks or paths
- Broad foot design for easy donning and removal
- Natural rubber construction for durability
- Dry Line inner for warmth and comfort
- Available in Long and short options

\*On Long option

Sizes 36 - 46

## Tri-Season Glove

Neoprene construction to help keep you warm and dexterous even on the colder days. Complete with Amara leather reinforcement on the palm, fingers and thumb, the Tri-Season glove gives the protection and durability you need when on the water in tough conditions or for long periods of time.

- Neoprene and Amara construction
- Amara pull tab on wear point
- Coated Amara protection on the palm, fingers and thumb
- Amara knuckle panel for protection and durability
- Palm reinforcement for protection against rope burn

Sizes J4 J5 XS S M L XL XXL

6952 

## Three Finger Glove

With its neoprene construction and Amara protection, the Three Finger glove is the perfect 'multi-sport' glove. Three full fingers plus cut-offs on the thumb and forefinger combines what we're all seeking for in a glove; warmth, comfort and dexterity.

- Amara knuckle panel
- Neoprene wrist for comfort
- Printed Amara on fingers and palm for grip and long life
- Super flexible spandex for increased movement
- Knuckle panel for protection and durability
- Printed Amara reinforced forefinger
- Three full fingers, thumb and forefinger cut off for dexterity

Sizes J4 J5 XS S M L XL XXL

6951

## Short Finger Glove

Designed for watersport enthusiasts of all levels, these gloves provide the wearer with the ultimate combination of dexterity and palm protection.

- Amara knuckle panel
- Neoprene wrist for comfort
- Printed Amara on fingers and palm for grip and long life
- Super flexible spandex for increased movement
- Knuckle panel for protection and durability

Sizes J4 J5 XS S M L XL XXL

Gloves

# BUILT FOR ADVENTURE

The new luggage collection is practical, stylish and tough. Featuring traditional holdalls, drybags and wet/dry hybrids, these bags are truly lifeproof.

## Wet/ Dry Holdall

Smart, roomy and most importantly with well separated wet and dry compartments, the Wet/Dry Bag is the ideal watersport enthusiast kit bag.

- Removable shoulder strap
- Heavy duty polyester construction
- Full wet and dry main compartments
- Neoprene padded carry handle

Size 75 L

6960-75L

## Crew Holdall

The Crew Holdall provides shore to boat practicality making it the first choice for sailors and motor boaters everywhere.

- Abrasion resistant with heavy duty wrap around base
- Semi opaque rip-stop panel for easy location of contents
- Roll top to keep contents dry
- Heavy-duty construction with reinforced base
- Carry handle and shoulder strap
- Internal slip pockets with dry compartment

Size 55 L 75 L 100 L

6961

## Bute Drybag

A tough, multi-purpose dry bag ideal for carrying surface watersport gear. The semi-opaque panel that runs the length of each bag makes it easy to find what you're looking for.

- Abrasion resistant with heavy duty wrap around base
- Semi opaque rip-stop panel for easy location of contents
- Roll top to keep contents dry
- 55 L option comes with shoulder strap

## Plasma QR Trapeze Harness

Many sailors are now opting for the reassurance provided by a harness with a built-in quick release hook.

- Versatile harness
- Adjustable lumbar support
- Spreader bar

Sizes J S/M M/L XL

3110

## Kortex Helmet

When you need head protection the Kortex helmet provides a supple, PU foam lined, lightweight solution coupled with the extra reassurance of its CE approval for impact resistance.

- Internal ratchet adjustment system and chin strap to provide the perfect fit
- ABS outer shell for impact protection
- PU foam lining for comfort and shock absorption
- Available in three colour ways
- Ventilation holes

Sizes S/M or L/XL

6315	Red
6316	Blue
6147	Black

## Kontour Helmet

Whether at work or for leisure, when you need head protection the Kontour provides a comfortable, lightweight solution coupled with the reassurance of its CE approval for impact resistance.

- Super high impact ABS hard shell with high density black EPS foam lining
- Comfortable foam padding
- Fully adjustable webbing cradle to ensure a perfect fit

Sizes S/M or L/XL

6252	Dark Blue
6253	Red

## Centre Zip 70N

A front zip allowing easy, jacket-style donning makes this buoyancy aid ideal for use in busy watersports centres. With a highly durable construction and full range of quick-pull, safe-lock adjustment straps, it offers a great fit and unhindered movement coupled with comfort and security.

- For convenience, each size is clearly colour-coded
- Outer body made from 500D cordura with 420D nylon lining
- 40mm polypropylene webbing shoulders with a 25 mm polypropylene adjustment strap and heavy-duty ladder locks
- Heavy-duty front zip for ease of donning, secured by a 25 mm side release buckle
- Full side adjustment
- Child/Junior size fitted with adjustable thigh straps

# Design and Fabric Technology

**GLIDESKIN NEOPRENE NECK & CUFF SEALS**  
Non irritant, high stretch for ease of donning and extreme water resistance.

**TAPED SEAMS**  
Added strength and water resistance.

**REFLECTIVE PRINT**  
Reflective print for added visibility.

**REFLECTIVE TAPE**  
Reflective tape for added visibility.

**EXTREME BREATHABILITY**  
Body water vapour is allowed to escape for greater comfort.

**INDICATOR WINDOW**  
To externally show status of the inflator.

**UNIQUE CHIN SUPPORT**  
To help keep airway clear of the water.

**AIS COMPATIBLE**  
Allows for automatic activation option on inflation.

**EXCEPTIONAL TURNING SPEEDS**  
Even when wearing multiple layers of wet weather clothing.

**3D SHAPE**  
For unrivalled fit

**QUICK BURST ZIP**  
QBZ closure system fitted

**FUSION 3D**  
To give maximum comfort and dexterity

**BS EN ISO 12402-2**  
Approved to the latest British and European standard.

**BUOYANCY CATEGORY**  
The level of buoyancy that defines each product and the environment they are suitable for.

**CYLINDER SIZE**  
The size of CO2 cylinder used to inflate the lifejacket.

**SPRAYHOOD**  
Fits over the wearer's head to reduce the amount of spray being inhaled.

**LIGHT**  
SOLAS approved lifejacket light.

**INFLATION MECHANISM OPTIONS**  
(M) Manual, (A) Automatic, (H) Hammar.

**EN 396**  
Approved to British Standards.

**FRONT ZIP**  
Quick, easy & secure closure.

**ADJUSTMENT FEATURES**  
Various adjusters to guarantee a bespoke fit and extreme comfort.

**SUPERSOFT FOAM**  
Soft 3D foam shaped to your body for extreme comfort.

**NEOPRENE**  
Extremely versatile synthetic rubber, highly flexible and insulating.

**ERGONOMIC DESIGN**  
Pre-shaped for increased flexibility and freedom of movement.

**CURVED ZIP**  
The front zip curves around the body for freedom of movement when sailing.

**MICROFLEECE LINED**  
Additional comfort and warmth.

**100% WATERPROOF**  
Fully waterproof fabric with taped seams.

**REINFORCED WEAR AREAS**  
Provides additional strengthening.

**MUSCLE SUPPORT**  
Close fitting against the body for extra hold.

**ADJUSTABLE SHOULDERS**  
Offer increased comfort, flexibility and an excellent fit.

**NYLON/SPANDEX**  
Highly stretch fabric for extreme freedom of movement.

**AMARA**  
Hard wearing reinforcement for high wear points.

**HALO HOOD SYSTEM**  
Halo hood system for elevated airway protection.

**QUICK LOCK BUCKLE**  
Slimline quick lock buckle system to provide easy donning.
